DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,5 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Nozaki et al (PN 5,703,900).

In column 4 Nozaki et al discloses a procedure for mounting a mirror to a surface of a solid-state laser. Line 12 describes the surface as having a superfine cutting finish. Lines 20-24 describe bringing the surfaces of the mount and mirror in close contact and dropping an adhesive between the surfaces, thereby achieving affixment of the mirror to the surface mount.

Allowable Subject Matter

Claims 2-4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter: None of the prior arts alone or in combination discloses the method steps of independent claim 1 along with the methods of dependent claims 2-4 having the pitch, depth and flatness as claimed in claims 2-4.
